To: Eduardo Gabrieloff - CDPHE (eduardo.gabrieloff@state.co.us) &lt;eduardo.gabrieloff@state.co.us&gt;

Eduardo,

Can you please ask Eric or Tiffany to do the following:

Counties: Moffat, Prowers, Archuleta.

Calculate cumulative rates of hosp and death in the past 90 days (say from Aug 1-Oct 31 to allow for lag) for each  
Display results along with population and % vaccinated for each county, to facilitate comparison (can get from table  
below)

Due date: Tuesday Nov 16 (?) -- should be pretty quick

Thanks

Alicia

OK, we will give you comparisons to Archuleta and Prowers counties, which seem to be the most similar. Shouldn't  
take long.

thanks

Alicia

Thanks for including me in the conversation; adding Brianna Merritt who is the Covid Epi Team 3 lead. How about a comparison to Archuleta, since that is also western slope and has a smaller hospital. Just a thought

Hi Kari,

We have had a look at other counties to find one that is comparable to Moffat. We have not found a good one to compare Moffat to in terms of size and % vaccinated, so I am reaching out to you to ask what you think is most useful. Would it help if we calculated some rates of hosp and death in the past 90 days for Prowers? Or, are there particular counties you have in mind? If easier, please feel free to give me a call to discuss: 303-916-1891.

You can see a snippet of the population and vaccination info below.

Thanks

Alicia

County	Population	Year	county	% fully vaccinated
CLEAR CREEK	9392	2020	county	65.3
YUMA	9999	2020	county	48.2
RIO GRANDE	11555	2020	county	61.1

PROWERS	12015	2020	county	47.1
MOFFAT	13288	2020	county	45.8
ARCHULETA	13368	2020	county	64.5
LAS ANIMAS	14559	2020	county	63.6
GRAND	15709	2020	county	64.9
ALAMOSA	16329	2020	county	60.6
GUNNISON	16943	2020	county	78
PITKIN	17363	2020	county	83.9
PARK	17427	2020	county	55.1

Alicia-

Could your team and their epi team help Moffat compare hospitalization and mortality outcomes in their county to comparable counties? Maybe something like 90 day cumulative hospitalization and death rates?

Thanks,  
Rachel

Hi Dr. Herlihy,

Memorial Regional Health Hospital in Moffat County has never provided mAbs through the pandemic and it is our LPHAs belief there are many residents who could have had better outcomes had they been given access. I have raised the red flag numerous times with CDPHE regarding this and Dr. France called them to ask them to provide them. I asked the question on the LPHA call because I am interested in the difference in outcomes for our county particularly compared to other counties in Colorado with similar vaccination rates (51.1%) and of similar size who have had access to mAbs.

Any data you could help us with would be greatly appreciated.

Thank you,

Kari
